

PitchBlue® - a distribution service of

**Deliver this message to your Station Engineers
and Master Control Operators**

PitchBlue® Satellite Transponder Change Announcement

Due to the C-Band Repack, PitchBlue® is moving to:

Galaxy 19 Transponder 23

4160 MHz. VERTICAL down (the polarity is NOT changing)

990 MHz. L-Band

**All other parameters and services (channels/PID
assignments) are identical and are NOT changing**

DUAL ILLUMINATION IS ACTIVE AT THIS TIME

**Your MagnuBox® appliance will be remotely retuned during
a maintenance window – there will be no station impact**

**IRD Users MUST RETUNE THEIR RECEIVERS and are
URGED to do so NOW!**

**PitchBlue® Satellite deliveries on G19 – T21 will end on
February 19, 2022**

**Please direct any inquiries to the PitchBlue® Operational Support Center:
866-437-BLUE (866-437-2583) or www.managedlinearsupport.com**
