

CTVSP61 "Yard2Table"

Cutty spends time dreaming up a charity organization whose goal is to help those citizens in the community in search of greater food independence by donating the items they need to grow their own food and teaching them how. Cutty enlists the help of some incredibly special local students and faculty members who all help make things better for deserving families. After a long day gathering reclaimed wood, building raised garden beds, and delivering the goods to those in need, Cutty rewards the gang with some ice cold homemade vegan soup...Kamuael Tomato Gazpacho. www.yard2table.org
